EXAMINER'S AMENDMENT

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 07 May 2010 has been entered.

Applicant's arguments, see, e.g., reply filed 26 March 2010, page 7, lines 21-32 were not fully persuasive, since the member, e.g., 69, of Tovey et al. appears to be capable of biasing the distal ends of the staple members in the first configuration. Accordingly, in an interview on 01 April 2010, to preclude a potential rejection, Applicant agreed to amend the claims to further recite that the member is substantially tubular, which is not shown in Tovey et al. Moreover, the prior art does not disclose or render obvious the claimed invention including a substantially tubular member configured to be disposed within the claimed ring and capable of biasing elastic staple members into an open first configuration, as claimed.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Theodore Shatynski on 01 April 2010.

The priority information has been amended as follows:

In the Specification, first paragraph, line 2, after "January 9, 2003, ", --now issued as U.S. Patent No. 7,112,211,-- has been inserted.

In the Specification, page 1, line 3, after "20, 2002, ", --now issued as U.S. Patent No. 6,699,257,-- has been inserted.

The claims have been amended as follows:

In claim 21, line 11, before "member" (first instance), --substantially tubular-- has been inserted.

In claim 21, line 11, before "member" (second instance), --substantially tubular-- has been inserted.

In claim 21, line 13, before "member", --substantially tubular-- has been inserted.

In claim 28, line 1, before "member", --substantially tubular-- has been inserted.

Claim 29 has been canceled.

In claim 30, line 1, before "member", --substantially tubular-- has been inserted.

In claim 31, line 2, before "member", --substantially tubular-- has been inserted.

In claim 32, line 1, before "member", --substantially tubular-- has been inserted.

In claim 33, line 2, before "member", --substantially tubular-- has been inserted.

In claim 33, line 3, before "member", --substantially tubular-- has been inserted.

In claim 39, line 5, before "member", --substantially tubular-- has been inserted.

In claim 39, line 6, before "member", --substantially tubular-- has been inserted.

In claim 39, line 7, before "member", --substantially tubular-- has been inserted.

In claim 39, line 8, before "member", --substantially tubular-- has been inserted.

In claim 42, line 1, before "member", --substantially tubular-- has been inserted.

In claim 43, line 2, before "member", --substantially tubular-- has been inserted.

In claim 44, line 1, before "member", --substantially tubular-- has been inserted.

In claim 45, line 2, before "member", --substantially tubular-- has been inserted.

In claim 45, line 3, before "member", --substantially tubular-- has been inserted.
